Personal Statement

As a recent graduate in Computer Science from Mapúa Malayan Colleges Mindanao, I am a passionate and design-focused individual with hands-on experience in UX/UI web design and front-end development. I aim to contribute to projects that require creative problem-solving, attention to detail, and technical expertise in crafting intuitive and engaging digital experiences.

Skills

UX/UI and Web Design Skills

I have hands-on experience with tools like Figma, Canva, HTML, and CSS to create intuitive and responsive user interfaces. I've worked on wireframing, layout structuring, and improving user experiences for institutional and e-commerce websites, focusing on clean, user-centered design. Communication and Collaboration Skills

Technical Programming Skills

I have a solid command of JavaScript, Java, C++, and web technologies. I've developed, maintained, and optimized websites, integrating functionality with design. My work involves debugging, testing, and ensuring user-friendly performance.

Communication and Collaboration Skills

I am confident in expressing ideas clearly through written reports, presentations, and technical documentation. Being bilingual in English and Filipino, I adapt well to diverse environments and can communicate effectively with peers, mentors, and clients.

Educational Attainment
